Week 1 Matchup Preview

All 6 games · Full PPR · Projections as captured pregame

Risk Watch check-in: of the four situations flagged in the draft grades report, three resolved the safe way and one is worth watching live. **Josh Jacobs** (Jer13) is correctly benched — still unavailable under his Commissioner's Exempt List status — with Aaron Jones and Rico Dowdle stepping into his spots. **Zach Charbonnet** (JLozoya) is also correctly sitting out his reserve-list absence; Bucky Irving and the newly acquired Omarion Hampton (via the trade graded last week, now confirmed active) fill the backfield instead. **Jordyn Tyson** (mattware1199) remains on injured reserve and isn't startable this week. **Puka Nacua** (00sef), on the other hand, is active and projected for a team-high 20.48 points — his conduct review is still unresolved, but he's playing.

Seven other starters are tagged Questionable across the league this week (noted inline, in gold, within each matchup below) — normal Week 1 noise, but worth a glance before lineups lock.

RB	D. Henry (BAL)	15.70	9.12	A. Jones (MIN)
WR	L. McConkey (LAC)	13.30	16.23	C. Olave (NO)
WR	M. Harrison (ARI)	10.66	11.66	E. Egbuka (TB) — QUES

K	H. Mevis (LAR)	7.08	7.14	C. Dicker (LAC) — QUES
DEF	Patriots (NE)	6.66	7.11	Texans (HOU)

Jer13 is not starting Josh Jacobs — correctly, given his exempt-list status. Three questionable starters on Jer13's side (Egbuka, LaPorta, Dicker) is the most of any team this week.

DEF	Vikings (MIN)	7.33	8.79	Seahawks (SEA)

The closest projected game of the week — 0.28 points apart. Four questionable tags between the two rosters (Jeanty, Kittle, Kraft, Burden) add real variance to a coin-flip matchup.

Malik Nabers (mattware1199, acquired in last week's trade) is tagged Questionable in his first game on his new roster — the ACL-recovery risk flagged in that trade grade is showing up live.

WR	J. Jefferson (MIN)	16.73	20.48	P. Nacua (LAR)
WR	R. Rice (KC)	14.46	13.95	T. McMillan (CAR)

Only 5 of 10 starting slots were visible in the uploaded screenshots for this matchup — TE, both flex spots, K, and DEF aren't reflected above. Puka Nacua projects as the single highest-scoring player shown in this game (20.48) — active and a focal point of 00sef's gameplan despite the ongoing conduct review.

K	E. Pineiro (SF)	6.37	6.40	H. Butker (KC)
DEF	Packers (GB)	6.88	7.35	Ravens (BAL)

Second-closest game of the week. Ja'Marr Chase (NathanR918) questionable is the headline flag in this matchup — he's projected as NathanR918's top scorer regardless. Whodatjuan is starting two questionable players in the same flex pairing (Swift, Downs).

Source: Sleeper app matchup screens, captured pregame. Projections and Questionable tags reflect Sleeper's own projections and injury designations at the time of capture and can move before kickoff. Two matchups (Dan Smith vs. Romosexual Tende..., and Benny and The JJets vs. real njigbas) were only partially captured — 5 of 10 starting slots each — so their team totals above reflect Sleeper's full lineup, not just the shown rows.
