Monday Night Preview: Eagles @ Bears

Monday, Sept. 28 · 7:15 PM ET (per Sleeper) · Case Keenum is expected to start at QB for Chicago after Tyson Bagent cleared the concussion protocol

What Monday decides

00sef vs. hogsett7 is the one Monday can flip: hogsett7 leads by about 3.6 and 00sef still has the Eagles defense (projected 8.68). **Zaniac18 vs. Jer13** is close too: Zaniac18 is up about 4.1 and still has Barkley (projected 15.95), while Jer13 is finished. **Whodatjuan vs. mattware1199** looks safe for Whodatjuan (up about 24.3 with Hurts and Swift still to come). Raymond49, NathanR918 and Karrobi hold big leads, and the Monday pieces (Burden, Lemon, DeVonta Smith) would each need a huge night to change anything.

How to read the numbers: **black** = computed from a real stat line with standard PPR (1/reception, 0.1/yard, 6/TD, 0.04/pass yd, 4/pass TD, -2/INT or fumble lost); **green** = Thursday's Sleeper final; **gold** ~ = estimate from partial or qualitative info; gray p = no result found, so Sleeper's pregame projection is standing in; **blue MNF** = Monday, not counted yet. Only a handful of slots are still gray placeholders (listed below); gold ones are educated estimates, so treat totals as close but not exact.

Coverage: 62 of 120 slots are computed from real stat lines or Thursday finals, 43 are estimates, 7 are Monday, 1 did not play, and 7 are still Sleeper projections because no stat line turned up: S. Diggs, Q. Judkins, X. Worthy, T. Pollard, I. Likely, Q. Johnston, C. Tate.

Recap

Raymond49 has this one in hand. Brock Purdy's four-touchdown, 297-yard day (31.28), Garrett Wilson's 10-catch, 107-yard game against Detroit (26.70), and a two-touchdown game from George Kittle (26.20) sit on top of Bijan Robinson's Thursday 35.30. The Vikings defense (six sacks, two interceptions, and a punt-return touchdown) added a big number too.

Caullyn got real production from Tee Higgins (21.00) and Terry McLaurin (19.70, 6/77/TD) plus a 16.50 from Trey McBride, but Jonathan Taylor went quiet (23 carries for 68) and the rest of the lineup was ordinary. Luther Burden is Raymond49's lone Monday piece; Caullyn has no one left to play.

Recap

00sef's Sunday came from Michael Wilson's 11-catch, 89-yard touchdown game (25.90), Kyren Williams' 88 rushing yards plus six catches (21.80), and Tyler Warren's 9-catch day (14.50). hogsett7 countered with Brock Bowers' return (10/116/TD for 27.60), Davante Adams' 7-137 (20.70), and Christian McCaffrey's touchdown day (21.60).

hogsett7 took a hit at quarterback (Drake Maye finished at 3.76 with two interceptions and a lost fumble) and Mike Evans left San Francisco's win with a rib injury after a touchdown. hogsett7 now leads by a few points, but 00sef still has the Eagles defense on Monday night, so this one is not settled.

Recap

The biggest swing is at quarterback: Sam Darnold returned for Seattle, so Drew Lock did not play and JLozoya's QB slot is a 0.00. NathanR918 got 20-plus from Joe Burrow (three touchdowns, one lost fumble), Ja'Marr Chase (9/98/TD), and Jeremiah Love, who had his best game as a pro (21 carries for 90, plus five catches and a touchdown), and George Pickens added 7/82.

JLozoya had Christian Watson's Thursday 22.60, Jason Myers' 57-yard field goal, and a strong Broncos defense (pick-six and a game-ending interception), but Amon-Ra St. Brown was quiet and Bucky Irving and Omarion Hampton were held down. M. Lemon on Monday is the only piece left and it does not change the outcome.

Recap

Karrrobi's Ravens pairing did the heavy lifting in Baltimore's 34-31 last-second win in Rio: Lamar Jackson (20.44) and Derrick Henry's two rushing touchdowns (20.90). James Cook added 154 rushing yards and a touchdown (19.40, net of a lost fumble), Harrison Mevis kicked four field goals (16.00), and the Patriots defense was a small negative after allowing 35 to Jacksonville.

satiro got Dak Prescott's 25/40 day (15.04), but De'Von Achane left with a knee injury on Miami's first drive and Jaylen Waddle mostly showed up through a two-point conversion. DeVonta Smith on Monday night is satiro's last shot, and it needs a very big game.

Recap

One of the closest games on the board. Jahmyr Gibbs' three touchdowns, 20 carries, and seven catches (about 41 by ESPN's season tally) keep Jer13 close, along with a Chris Olave 9-107 day and a 12-point kicker line from Chase McLaughlin. Zaniac18 has Drake London's Thursday 28.40, Jaylen Warren's 176 scrimmage yards, Rashee Rice's 7-88, and a big Jaguars defense (16.00).

Justin Jefferson's ankle injury cost Zaniac18 a lot (5.30), and everything now hinges on Saquon Barkley on Monday night. Jer13 has no one left to play; Terrance Ferguson's early ankle injury in the Rams' Sunday-night loss cost Jer13 a starter.

Recap

mattware1199 got CeeDee Lamb's 7-112 day plus a two-point conversion (20.20), Zay Flowers' return from his hamstring injury (5/84), and a Travis Kelce touchdown, but Breece Hall's thigh injury, a quiet Nabers, and a 3.90 from TreVeyon Henderson held the total down. It has no one left to play.

Whodatjuan got 35.36 from Jaxon Smith-Njigba, 24.10 from Harold Fannin (two touchdowns), and Matthew Golden's Thursday 21.00, but the Packers defense finished at -2.00. Whodatjuan already leads and still has Jalen Hurts and D'Andre Swift on Monday night (Sleeper projects 32.15 combined), so it is in good shape.
